

Sanctity of Human LIFE

Uniquely EQUALLY *Uniquely*

Informed Choices

+ MEDICAL CLINICS

Strength for Life's tough choices

Iowa City • Ames • Fort Dodge • DesMoines • Burlington

You are Equally Unique! Every LIFE is Equally Unique! We are working across the state of Iowa to eliminate abortion *one need at a time*. The Informed Choices Medical Clinics meet the needs of women who are planning to terminate their pregnancies every day. Here in Iowa, 50% of abortions are performed on 18 to 24 year old college students. Our state-wide vision is to have a presence on all the major universities and community colleges in the state by 2020. Do you know 95% of women who have had an abortion wish they had been given more information? With abortion rates climbing to 1 in 4 women, our medical clinics are needed more than ever to provide accurate medical information to women and men when they need it most. We are excited to report 91% of abortion minded women choose life after visiting an Informed Choices clinic.

Our Services:

- Pregnancy Testing
