Strength for Life's tough choices

W H O
A R E
W E ?

Informed Choice of Iowa is the largest and fastest growing pro-life organization in Iowa, as well as the only pro-life AAAHC accredited (aaahc.org) medical group in Iowa.

Everyday at the Informed Choices Medical Clinics we meet the needs of men and women in Iowa who are faced with difficult sexual health decisions by providing, free of charge:

- Pregnancy Verification
 - consultation, pregnancy test, ultrasound, early prenatal care
- Pre-Termination Evaluations
 - consultation, STD testing and treatment, pregnancy test, ultrasound
- Sexually Transmitted Infection and Disease Testing and Treatment
 - for men and women
 - risk assessment, risk avoidance education, testing and treatment

Why We Are Here

An estimated 9,000 abortions are performed in Iowa each year, of which approximately 3,500 are performed in Iowa City, 3,500 in Des Moines and the remaining 2000 across the rest of Iowa. We have a responsibility to respond to this urgent need.

Planned Parenthood's own statistics tell us that 95% of post-abortive women wish they had been given more information. 90% of those women also stated that knowing what they know now, they would not have had an abortion.

From these statistics alone, it is easy to see why information is the key to LIFE or Death in Iowa. We know from experience that honest, evidence-based information, presented by medical professionals in a caring environment, will lead to an Informed Decision to choose LIFE more than 90% of the time.

Many of the women who come to our clinics have become convinced that they **need** an abortion. We help set her fears aside to identify and meet her real needs (informational, physical, or spiritual). In meeting those needs, 91% of the time, she will choose LIFE.

When real needs are met, fear is replaced with confidence, giving strength to make and follow through on life's tough choices.

With 4 clinics and one mobile unit up and running in 2016 we expect to see more than 500 women, who had planned to terminate their pregnancies, choose LIFE each year.

With your help, Informed Choice of Iowa has its sights set on the entire state. Our hope is that within 5 years, women seeking abortion will find an Informed Choices clinic within an easy drive from their home, no matter where they live in Iowa. With that level of name recognition and reputation across the state, we hope to see abortion become unthinkable once again.

But, first things first. For 2015 we need to finish outfitting our mobile unit "Charlie" and get him on the road yet this year. After that, we need to get Burlington up and running right away. To do this, we need more volunteers, nurses, mid-levels, and doctors in all of our clinics and the finances to make it all come together. In short, we need you!

Why are we here tonight? We are here to celebrate the 1000 lives that have been saved through Informed Choices so far, to be visionaries for the future of Iowa, and invest towards the next 1000 women and their babies.

*Mary kept all these things,
and pondered them in her heart*

O Mary, Mother of the Life Within, all life we entrust to you;
The life of every expectant mother and the child within her womb:
The life of every human body, the life of every human soul;
The life of every newborn child and the life of all grown old.
You held the Lord to your own heart and drew Him so close in.
So draw us now in all our needs, O Mother of the Life Within.

The Story so far...

Informed Choice of Iowa was founded in June of 2007 with the vision to eliminate the 'need' for abortion in Iowa. After recovering from the flood in 2008, the Choices Medical Clinic was opened in Iowa City in April of 2009.

Several bold changes were implemented to develop and refine the impact both in Iowa City and across the state. A linear services model was adopted as well as a commitment to freely assist other pro-life groups. Bridgehaven was the first group outside of Iowa City to benefit from this state wide vision. An ultrasound machine and new policy and procedures helped them move forward and better serve the women of Cedar Rapids.

Over the past six years, five different pro-life groups have benefited from the vision and experience of Informed Choice of Iowa. Two groups have moved from a PRC model to Medical model and one brand new medical clinic was opened in West Des Moines.

In 2011 Choices Medical Clinic was renamed and rebranded as the Informed Choices of Iowa City Medical Clinic.

In 2012 the first satellite clinic, Informed Choices of Ames Medical Clinic, was opened near the Iowa State University campus.

In 2014 the second satellite clinic, Informed Choices of Fort Dodge Medical Clinic, was opened and "Charlie", our first mobile medical unit was built.

Over the past year, Informed Choices achieved AAAHC accreditation in February and now all of our clinics are Accredited Ambulatory Clinics. We have continued to raise money and support for the new Burlington clinic and for Charlie. We are confident that Charlie will see his first client before the end of 2015 and we are hopeful that we will have Burlington ready to open very soon afterwards.

We have reached some exciting milestones in 2015. We are excited to celebrate the 1000+ women and their babies who have been spared the pain of abortion over the past 6 years. Looking ahead we are confident that we will double that number in the next two years.

Our new 20/20 vision is an aggressive push to reach the state of Iowa and truly be the preferred alternative to Planned Parenthood. Our vision is to open a new satellite clinic and add a new mobile unit each year for the next 5 years.

By 2020 we hope to serve more than 15,000 clients **each year** (Pregnancy and STD) and see more than 1,500 women choose LIFE for their child **each year**. Estimating conservatively, we expect to defund Planned Parenthood by at least two million dollars each year in lost revenue.

Nestled into the hills of Kalona is a small, locally owned hen house that produces some of the freshest, most sought after organic eggs in the nation. Mark Miller, and his son, Ryan, have operated the hen house for about six years, continuing the legacy of an Amish man who started it nearly a decade ago. To process the eggs, much of the work is done by hand by about a dozen local Amish and Mennonite workers.

Eggs you can Feel Good about.

WE ARE BUILDING BRAND RECOGNITION

Everyone knows the name Planned Parenthood. Ask any high school or college aged student where they would go if they needed reproductive health services, and they will almost always say, "Planned Parenthood." Even though there are more options than ever before, only one company has dominated the field, with their interpretation of women's healthcare and their agenda... until now. The Informed Choices Medical Clinics brand is gaining recognition and building a reputation for quality, compassionate reproductive health care among college students across Iowa.

Kendall Adams, Pastor

Accredited by

ACCREDITATION ASSOCIATION
for AMBULATORY HEALTH CARE, INC.

Accreditation distinguishes our clinics from other outpatient facilities by providing the highest quality of care to its patients as determined by an independent, external process of evaluation.

Accreditation by AAAHC is proof that we have met the rigorous standards of a nationally-recognized third party. Accreditation shows our commitment to providing the highest levels of quality care to our patients, and the same high level of quality in our business practices.

We believe our patients deserve the best. AAAHC is an independent, not-for-profit organization, that has closely examined our facilities and procedures.

Status as an accredited organization means Informed Choices has met nationally recognized standards for the provision of quality health care set by AAAHC.

We care enough about our patients to strive for the highest level of care possible.

More than 6,000 ambulatory health care organizations across the United States are accredited by AAAHC. Not all ambulatory health care organizations seek accreditation; not all that undergo the rigorous on-site survey process are granted accreditation.

Quite possibly the last weight-loss program you'll ever need

SPREAD THE WORD

Make sure your family and friends who value LIFE know about Informed Choices and the great need to support LIFE in the state of Iowa. Consider becoming a liaison for your church or civic group to keep in touch with us and pass on important information throughout the year. Consider inviting us to speak. We are happy to speak to groups small or large. Sunday mornings are especially popular, because we can bring our mobile unit to tour.

SHARE YOUR TALENTS

It takes a lot of volunteers to make an Informed Choices Clinic work efficiently. Each location requires 8-10 each of medical staff (RN, RDMS, NP, MD), Receptionists and Ultrasound Assistants, as well as a handful of other positions. That's nearly 40 volunteer positions for each clinic. This is something we can't do on our own. We need your help to find the right people for the job.

SHARE YOUR RESOURCES

As you know, it takes more than good intentions to keep the lights on. We run each clinic as efficiently as possible (\$160K per clinic per year). Many churches and civic groups across Iowa include us on their mission budget each year. Other groups make sure to promote our two fundraising events each year and encourage their members to participate. No matter your approach, an Investment in Informed Choices is an investment in LIFE.

If you are interested in partnering with us, we would love to talk with you and provide you with answers to all of your questions. We would value the opportunity to provide a tour of one of the clinics for you.
